

# Fishing at Åre

Åre is the biggest Swedish ski resort. It's situated at the foot of the forest covered mountains, the highest of which is Åresutan with the height of 1420 m. Of course, the name of this resort is associated with the winter activities, but nevertheless, it offers great fishing to the visitors.

This beautiful mountain area has lots of lakes and rivers rich with fish. In the lakes most common are pike, perch, zander, trout, and types of carp.

During the summer time the most popular is the float fishing from the boat or the shores. In addition, during the summer Åre offers many other outdoor activities for the whole family - hiking tours, mountain biking, kayaking and rafting.

And without doubt, Åre is famous for the ice fishing during the wintertime.

The main ice fishing catch in Åre is a perch. However, in the process one can often catch whitefish, pike, turbot, grayling and char. Places, rich bass and pike, are all over the Åre. In addition, the winter Åre is a very lively ski resort. It is a recognized Alpine ski resort of world class. There is everything to have a great vacation with your family with small children or with the big group of friends. Here are slopes of different nature and varying difficulty, comfortable accommodation to suit all tastes. During winter in Åre and you can go dogsledding, visit the elk farm, ride on the frozen lake on a Porsche or fly over the canyon in zipline.
