

# Fishing in Stockholm

Stockholm seems to be the only city in the world, where you can find a fisherman just right near the Parliament. And Stockholm's archipelago, which spreads out from the city provides perfect fishing possibilities without leaving behind all the attractions of the big city. This is a perfect opportunity to combine a fishing trip with the highest level of service. Here we can offer modern yachts, most experienced fishing guides and comfortable accommodation. The major advantage of the fishing in Stockholm is that the season here is all year round. At the cold winters sometimes ice fishing is available. And all of this so close to the Stockholm city and its beautiful architecture, world-class restaurants, shops and rich culture.

At this area you can catch pike, sea trout, walleye and perch.

We offer you to stay in the hotels or in one of our beautiful cottages at the island, here you will be able to enjoy amazing Scandinavian nature.
